**PROFITTIME AND PROVISION**

vAUTO
INTEGRATIONS

The Power of One | Cox Automotive

A key integration between VinSolutions and vAuto gives dealers more actionable insights into the appraisal, acquisition, selling, and pricing of used vehicles. VinSolutions CRM and vAuto's Provision work together so dealers can access key CRM data and create a stocking strategy that puts the right vehicles on their lots—all from their own customer base.

Available Integrations:

- VinSolutions CRM
- VinSolutions Desking

Align sales and inventory management strategies with the vAuto integration from Cox Automotive:

Match Inventory to Wish Lists

Get real-time alerts when a vehicle you are appraising matches a customer's wish list.

Adjust Price for Customer Demand

View active leads for each vehicle in vAuto's pricing tool, and leverage vAuto's market data to make competitive pricing decisions.

Source from Your Service Lane

Reduce costs associated with pre-owned inventory acquisition by sourcing vehicles from your service department.

VinSolutions Desking + vAuto

Apply your inventory strategy to each deal with a view of inventory information from vAuto Provision and ProfitTime within VinSolutions Desking.
