

CONNECT DESKING

CLOSE MORE EFFICIENTLY

without sacrificing profits

Closing the deal is easier than ever with Connect Desking. In a single screen, you can desk multiple deals, book out vehicles, appraise trade-ins, update customer information and even see who's shopping your showroom.

ANYWHERE!**
Available on mobile

Connect CRM Integration

Automatically populate customer records with everything from their vehicles of interest and trade-in details to your customized sales proposals, follow-up history and more.

Instant Rebate Information

Connect Desking's real-time integration with AIS and all major OEMs expedites incentive information seamlessly.

Faster Financing

Instantly pull financials from Dealertrack and RouteOne, like credit reports and OFAC checks. Generate multiple options for customers in seconds — including purchase, lease, cash and balloon — and display them side-by-side to inform and engage your customers.

Customization for Customers

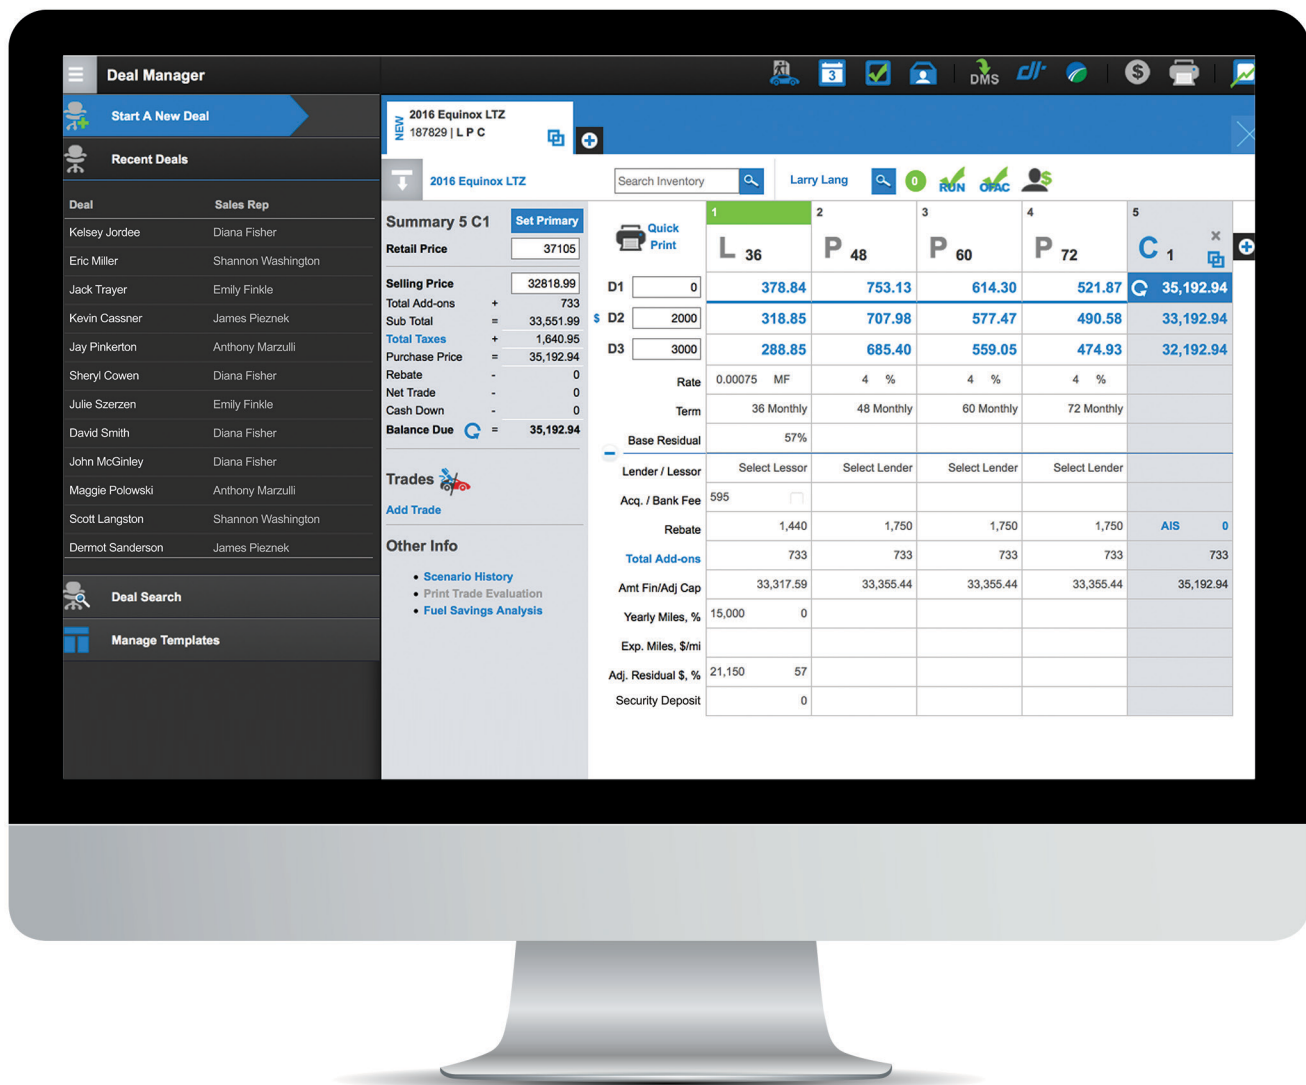

Easily create the best possible purchase experience for your customers with customizable forms, proposals, worksheets and everything else you use to close the deal.

Maximized Revenue

Accurately identify and eliminate profit leaks with complete insight into your showroom activity, desklog, customer appointments and more. You can even roll payments in multiple ways for maximum growth potential.
